Power Market in India Way Forward

Course Overview:

Indian Energy Exchange (IEX) and Indian Institute of Technology Kanpur (IITK) are organizing a 3-day residential Leadership course on “Power Market in India - Way Forward from 26 - 28 April, 2017. The program will be hosted at IIT Kanpur Campus.

Course Objectives:

This Course aims to provide insights into the development of electricity markets in India and provide a platform for discussing the challenges and way ahead. The program would:

- Enable participants grasp the Fundamentals of electricity markets.
- Develop insights into the functioning and regulation of power markets.
- Provide hands-on Experience to participants on the working of Power Exchanges.

Who Should Attend:

The training course has been specifically designed for senior to middle level professionals from industry and practitioners from the entire power sector spectrum including:

- Generation, Transmission and Distribution companies
- Traders
- Financial Institutions and Banks
- Open Access Customers
- Consultants
- Academicians
- Officers of Regulatory commissions

Our Value Proposition:

The pedagogy of the course aims to synergize theory and practice. The course contents, to be taught by power sector experts and academicians, are supported by insights based on IEX's years of successful energy trading experience and thought leadership from IITK. IEX and IITK plan to adopt interactive methodology for this program to ensure knowledge advancement and intellectual progression for the participants. The program also includes visit around IIT campus including the Solar Energy Research Enclave (SERE).
