

Circular No: IEX/MO/1091/2023

Date: 14th Nov 2023

Bidding through IEX Web Based Platform – (Energx)

Dear Members,

In pursuance of Rules, Byelaws and Business Rules of the Exchange, the Members are hereby notified as under: -

IEX is pleased to introduce Web Based Trading Platform (Energx) for its members, Energx is a state-of-the-art technology platform which is developed by IEX to provide hassle-free access to bidding across all electricity segments.

Following are the key Benefits of Energx Portal:

- Energx is a secured layered portal itself hence no SSL connectivity is required to access it.
- Energx will eliminate the need of software installation to specific Devices, hence members are not required to install the new software as and when updated software release implemented.
- Energx provides Any Time Any Where Login access. It can be accessed through web browsers on desktop or Laptop devices having Internet connection.
- HPDAM Bids file / Folder Upload facility provided in Energx.
- HPDAM Profile Block Bid feature enabled in Energx.
- OTP Based Self password reset facility.

Energx is already deployed in LIVE and most of the members have already started bidding from Energx portal, we request all members to start bidding through Energx portal on regular basis so that member`s bidding team may become well versed with the web-based bidding platform which will help all of us to migrate from existing desktop applications (MAT/TWS) in a seamless manner.
